G H Raisoni Institute of Engineering and Technology (GHRIET)

Master of Computer Application(MCA), CGPA (8.13/10)

Perusing

Nagpur, Maharashtra

Internships

DevBee IT Solutions International Pvt. Ltd.

NAGPUR

January 2024 - July 2024

[Internship certificate](#)

Software Developer Intern

- During my internship, our team consisted of two people. My friend worked on the front end using **TypeScript with React and the CSS framework Material-UI**, while I handled the backend development. We developed a canteen and nursing website, which is a module of a real-world project for our company.
- In this project: We created an admin panel where administrators can add categories, food items, and food combos. We implemented a Point of Sale (POS) system to calculate the total amount or price of orders.
- We developed a nursing module to manage user health records and details. We integrated user authentication for secure access.
- I was responsible for developing the APIs for our website using **TypeScript with Nest.JS and MongoDB**. Additionally, I tested the APIs using **Swagger and Postman**.

Projects

YouTube Clone Project

- Developed a YouTube clone utilizing React, Redux, and Tailwind CSS for efficient video rendering and user interface design.
- Implemented complex features such as **live chatting** with optimized performance.
- Integrated API calls for seamless video streaming and playback.
- Enhanced search functionality using the concept of debouncing to improve user experience and performance.

Achievements

- Achieved 3rd prize in a college **Code-A-Thon** Competition.
- Secured 1st place in a **computer Programming Language Quiz** competition as part of a three-member team.
- Successfully completed a comprehensive React development

course. [Certifi](#)

Technologies/ Framework: React, Redux, Tailwind, material UI, NestJs, Git, GitHub.
